WHO WE ARE...

Communication 101 “Kids Style” is a non-profit created to empower young children to have healthy, constructive communication skills with their peers, parents, and family members. Too often, our children, when faced with conflict, do not have the adequate skills to communicate effectively to solve their problems. Our goal is to create a more confident child who is proficient at communicating their emotions.

What to Expect at a “Kids Style” Camp

REAL LIFE EXPERIENCES

At a “Kids Style” Camp, children will act out Real-Life situations where communication is key. Certified counselors will teach them skills to effectively express their thoughts and emotions.

PHYSICAL ACTIVITY

It is just as important to learn how to communicate with a teammate or fellow participant in physical activity. We will incorporate a sport or physical activity and coach the kids on how to interact effectively in this environment.

CREATE CONFIDENCE

Through learning different communication techniques, children will be more confident when expressing their feelings. Learning how to interact with their peers through positive communication will create a more confident young adult.
